Career Objective

Information Science and Engineering undergraduate with strong foundations in Java, Python, Data Structures and Algorithms, Object-Oriented Programming, and Database Management Systems. Passionate about software development and Artificial Intelligence, seeking opportunities to apply technical skills, solve real-world problems, and contribute to innovative engineering teams.

Education

Bachelor of Engineering (Information Science and Engineering) **2023–2027**
RNS Institute of Technology, Bengaluru
CGPA: **8.71/10**

Pre-University Education (12th) **2023**
St. Joseph's PU College of Excellence, Bhadravati
Percentage: **90.16%**

SSLC (10th) **2021**
AVS School, Bhadravati
Percentage: **84.96%**

Technical Skills

- **Programming Languages:** Java, Python, C
- **Core Concepts:** Data Structures and Algorithms, Object-Oriented Programming, DBMS
- **Database:** MySQL
- **Tools:** Git, Visual Studio Code (VS Code)

Projects

AI-Based Interview Preparation System and Feedback System

- Developed an AI-driven interview preparation platform that generates personalized interview questions by analyzing users' technical skills, interests, and target job roles.
- Integrated Natural Language Processing (NLP) techniques to evaluate candidate responses and provide automated, personalized feedback to improve interview performance.
- Designed an intelligent recommendation module to identify skill gaps and suggest role-specific practice questions for continuous learning.
- **Key Skills:** Python, Data Analysis, Machine Learning, Problem Solving, Natural Language Processing (NLP)

Intelligent Blood Donation and Emergency Donor Matching System

- Developed a blood donation management platform that efficiently matches eligible donors with recipients based on blood group, geographic location, and donor availability.
- Built an automated donor matching and notification mechanism to facilitate timely communication between donors and recipients during emergency situations.
- Designed features for donor registration, blood request management, and real-time availability tracking to improve coordination and response time.
- **Key Skills:** Python, Data Analysis, Database Management, Mobile Application Development, Problem Solving

Certifications

- Fundamentals of Artificial Intelligence Provider: NPTEL
- Cloud Computing Provider: NPTEL
